Qualification Test Results

Our representative was present to witness the above welder qualify on the test stated above and attest that he/she is able to produce quality welds that are acceptable to the AWS welding code standard requirements. The welder is therefore certified to perform groove or fillet welds in the 1F/1G, 2F/2G, 3F/3G & 4F/4G positions on pipe or plate and in the range that was tested on.

This certification will remain in good standing indefinitely with proof of continued work performance from qualified personnel every 6 months.

The welder identified above to perform welds in the shop/field as per specified code.

ATTENTION: Please be aware that after 30 days past the expiration date you will not be able to renew this certification. Re-qualification fee will be required.
